This only applies to postponed events. No additional exceptions are allowed.
- (i) NFHS Order of Competition: A random draw must be conducted immediately following the conclusion of weigh-ins to determine the first weight class that will be competed in dual matches.
 - (1) This begins with the regular season and continues through the individual state championships.
 - (2) The draw will take place immediately preceding the weigh-ins.
 - (3) The referee or other authorized personnel shall supervise the draw.
- (j) Schedules: Both varsity and junior varsity schedules are due to the appropriate regional supervisor by September 30.

 - (2) Contestants in an individual tournament shall weigh in at the tournament site a maximum of two hours before the first session of the day.
 - (3) When a preliminary meet is followed by a varsity meet, weigh-ins may, by mutual consent, precede the preliminary meet.
 - (4) For any event, all contestants shall be present in and remain in the designated weigh-in area at the time established by the meet administration.
 - (5) Contestants shall not leave the designated weigh-in area for any reason unless permission is granted by the meet administration.
 - (6) The weigh-in shall proceed through the weight classes beginning with the lowest weight class and end immediately upon the completion of the highest weight class.
 - (7) A contestant shall weigh in for only one weight class during the weigh-in period.
 - (8) If only one scale is available, a contestant may step on and off that scale two times to allow for mechanical inconsistencies in the scale.
 - (9) If multiple scales are available, a contestant may step on and off the first scale two times to allow for mechanical inconsistencies in the scale. If the contestant fails to make weight on the first scale, the contestant shall immediately step on each available scale one time in an attempt to make weight.
 - (10) During time off the scale(s), activities that promote dehydration are prohibited. The referee or the official, of the same gender, shall supervise the weigh-ins.
- (m) Rules Regarding Practice:

- (2) A bucket or squeeze bottle with a 10 percent bleach or isopropyl alcohol solution and rubber gloves should be placed at each mat for cleaning purposes. This same solution should be used to wipe any blood off an opponent's skin.
- (3) It is important that any time there is blood present, even on uniforms, that it is treated with care regarding its ability to transmit infectious diseases.
- (4) If the bleeding problem is severe enough, the competitor should not be permitted to continue, not only from the standpoint of possible disease transmission but also for the health and safety of the injured athlete.
- (5) During the match each coach will be responsible for cleaning his own wrestler, and the home team is responsible for cleaning the mat. (Refer to NFHS Rule Book).
- (6) A form related to communicable skin disease is also available on the NCHSAA website.

(o) Filming, Videotaping or Video Streaming: Reference 4.1.25.

4.14.2 **Establishing Mandatory Certified Minimum Weight:**

(a) Part I – Register with the NWCA

- (1) Schools are required to register with the NWCA by October 1, 2017; the cost is \$30.00 per year. Registration information can be found on the NCHSAA webpage under the wrestling section.
- (2) All schools are required to enter hydration test results, skinfold measurements, official weigh-ins, season schedule, and match results into this system.
 - (i) Failure to do any of the listed may result in a penalty.
- (3) Weigh-ins and match results must be entered within 24 hours.

(b) Part II – Hydration Testing

- (1) Hydration testing may begin no earlier than October 23.
- (2) Practice cannot be held until the wrestlers attending that practice have passed a hydration test and had their certified minimum weights established. Example: If a school is not able to conduct testing until Friday, November 3, that school could not hold “mat” practice until that process has been completed on Friday.
- (3) Students who are not eligible 1st semester when measuring is done, should not be measured until they gain their eligibility.
- (4) A NCHSAA Certified Measurer must perform the official measurement of Urine Specific Gravity (USG) using chemical dipsticks or refractometer. Coaches are encouraged to check the athlete's hydration status throughout the season (using their own test strips, refractometer or urine color chart).
- (5) Test of USG must be passed prior to Skinfold measurement:
 - (i) Trial 1
USG of 1.025; skinfold measurement may be done.
USG > 1.025; re-test no earlier than 24 hours, but no later than 72 hours
 - (ii) Trial 2
USG of 1.025; skinfold measurement may be done.
USG > 1.025; re-test no earlier than 24 hours, but no later than 72 hours
 - (iii) Trial 3
USG of 1.025; skinfold measurement may be done.
USG between 1.025 – 1.030; skinfold measurement to be done and athlete MUST move up one weight class from minimum weight
USG > 1.030 athlete is ineligible for the season

(c) Part III - Skinfold Measurements to Determine Body Fat

- (1) No wrestler may practice until a certified minimum weight has been determined and no wrestler may ever wrestle below his certified minimum weight.
- (2) Certified minimum weight information must be entered into the NWCA website at the completion of measuring.
 - (i) Skinfold measurement must be done by the NCHSAA approved measurer. Lange or Baseline Calipers or BodPod must be used. The measurer cannot be a wrestling coach. Medical personnel, even if trained in skinfold measuring, do not automatically qualify. They should contact the NCHSAA to obtain information on becoming an approved measurer. Once a person is trained or approved by the NCHSAA, he or she does not have to attend a clinic on a yearly basis. NOTE: A clinic is offered each summer during the NCCA clinic in Greensboro.
 - (ii) Areas of measurements for males will be triceps, subscapular and abdominal. For females, triceps and subscapular. (See Appeals section for information on requesting a 2nd skinfold measurement.)
 - (iii) The Lohman/Brozek Equations, which were developed specifically for high school

wrestlers, will be used to determine body fat, as well as the certified minimum weight class in which a wrestler will be allowed to participate.

- (iv) Certified minimum weight with three percent error allowance will be used. This is the athlete's lowest wrestling weight without filing an appeal. The NWCA system automatically applies this 3%.
- (v) To be eligible to participate, a wrestler's body fat cannot be below 7% for men, 12% for females. If initial testing indicates a wrestler's body fat is below the minimum percent allowed, he/she will not be able to participate without written clearance from a licensed physician, physician's assistant or nurse practitioner, indicating that the athlete is naturally at this Sub-7%/12% level).
- (3) These written clearances must be approved by the NCHSAA prior to the wrestler competing. Form is available on the NCHSAA website.
- (d) **Growth Allowance:** On December 25, the two-pound growth allowance will be allowed.
 - (1) Wrestlers who have certified their minimum weight class before December 25th will receive the 2-pound growth allowance after December 25th.
 - (2) Wrestlers who have not certified their minimum weight class by December 25th will receive the growth allowance the first time they weigh-in after certifying.
 - (3) Coaches must select each wrestler who will receive the two pound allowance on NWCA website before they can use the allowance.
 - (4) The first time wrestlers use the growth allowance, they declare their certified weight class and intent not to wrestle at a lower weight class. Wrestlers cannot recertify at a weight class below their certified weight class, regardless of what weight class their body composition and/or descent plan allows.
 - (5) Example: A wrestler's body composition assessment will allow him to wrestle at 130 pounds. He makes scratch weight at 135 pounds before December 25th, and in the first meet after December 25th uses the growth allowance to weigh-in for the 135 pound weight class. He cannot recertify at 130 pounds because he used the growth allowance for the first time at 135 pounds thus declaring his intent not to wrestle below 135 pounds. A wrestler cannot use the growth allowance to achieve a lower minimum wrestling weight class than his/her 7%/12% weight permits because the wrestler must make scratch weight one time at their minimum wrestling weight class before receiving the growth allowance. Once the regular season has concluded, all wrestlers will receive the 2 pound growth allowance at their certified weight or higher.
- (e) **Weight Class Certification:** Wrestlers have until Saturday, January 27, 2018, to certify the lowest weight class at which they would like to participate during the individual, regional and state tournaments.
 - (1) Wrestlers must certify their minimum wrestling weight class (certified weight class) by making "scratch weight" at that weight class at least one time. Scratch weight must be actual scale weight without the addition of any kind of additional pound(s) allowance.
 - (2) Wrestlers must be eligible to compete before their coach allows them to weigh-in for any weigh-in. Wrestlers weighing in and not eligible to compete will not be allowed to count the weigh-in as scratch weight, and the coach could be subject to further sanctions by the school and the NCHSAA.
 - (3) Even though a wrestler has certified their weight class for post-season competition, they must still abide by the NWCA weight loss guidelines and remain cognizant that their weight is below the certified weight class on January 27.
 - (4) After the weight class certification, the weight loss descent plan will remain in effect through the individual regionals.
- (f) **Monitoring Weight Loss and Certified Minimum Weight**
 - (1) Daily and Match weigh-ins are mandatory.
 - (i) Daily weigh-ins: Should be conducted by the coach. This information should be kept on scratch sheets and be available if requested by the NCHSAA.
 - (ii) Match weigh-ins: Must be conducted and observed by all participating coaches in the match and/or tournament. Weigh-in data MUST be entered within 24 hours of match/tournament completion.
 - (iii) All daily and match weigh-in sheets must be available for NCHSAA review.

4.14.3 **Weight Loss Guidelines:**

- (a) All wrestlers losing weight are limited to an average weight loss of 1.5% per week throughout the season, beginning the Monday of the week their body composition is assessed.
 - (1) Weight loss as a result of fluid loss is normal for strenuous exercise, BUT a 97% rehydration should take place within a 24-hour period.

- (b) Failure to Meet Weight Guidelines
 - (1) If a wrestler's weight falls below allowed daily weight plan:
 - (i) He/she must compete at the weight class the daily weight plan certifies him/her, or the next highest weight class, even if the weight is substantially below the daily minimum wrestling weight.
 - (2) If a wrestler's weight falls below his/her established certified minimum weight.
 - (i) He/she is not eligible to practice or compete until he/she reaches his/her certified minimum weight.
 - (3) The penalty for wrestling below the established certified minimum weight is a \$500.00 fine and the wrestler is ruled ineligible for the remainder of the season.
- (c) Appeals: Forms can be found on the NCHSAA website and must be completed by the school and submitted for approval to the NCHSAA within 14 days of wrestler's original measurements and prior to competing. After 14 days have passed or the wrestler competes he/she is no longer eligible to appeal. There are two areas of appeals:
 - (1) Request to wrestle with body fat % below minimum established - If a wrestler's body fat is below the minimum established, 7% for males and 12% percent for females, permission can be granted for the wrestler to participate if approved by a physician and parents/custodians.
 - (2) Appeal of minimum weight – must be approved by NCHSAA but does not require written approval of physician or parents/custodians. In accordance with NCHSAA weight loss guidelines a wrestler may appeal his/her initial skinfold measurements. This appeal process is not in place to give the wrestler an opportunity to lose additional weight and be re-measured in order to achieve a lower certified minimum weight. It is available if there is any question on the accuracy of the initial measurements. Some appeals may require an appeals committee approval.
 - (3) The following is a list of options available:
 - (i) Option 1 – Request school personnel re-compute initial calculations. If 2nd calculation is not accepted, the wrestler can request to be re-measured by the same skinfold measurer. NOTE: The original weight will be used in the re-calculation. Only the skinfold measurement will be retaken. Wrestler then chooses which measurement to accept.
 - (ii) Option 2– Wrestler does not ask for calculations to be re-computed, or for skinfold measurements to be retaken, but opts to be measured by means approved by the NCHSAA Sports Medicine Advisory Committee (List found on NCHSAA website).

 - (5) All regular-season varsity matches, including tournaments, wrestled prior to January 30, shall be used in determining the won-loss record.
 - (6) In cases where the wrestler has participated in less than 15 matches, the number short of 15 shall count as losses for seeding percentages.

 - (8) Forfeits are counted toward the won-loss record, while byes are not.
 - (9) Regional seeding requirements and guidelines will be posted on the NCHSAA Wrestling page of the website.
