

NCHSAA Golf Championships
2021-22 Digital Scoring Information

For this event, we will be using individual digital score cards through the USGA TM app.

This is the same system the AJGA is using, and it is very easy to use.

Players will use their personal phone to keep scores during the round and verify scores after each round.

Each player will keep someone else's score just like using a paper scorecard.

Here is a link to a You Tube video that demonstrates how the electronic scorecards work.

Please watch the video before the tournament.

<https://youtu.be/kkJJizgtUuM>

Please go ahead and download the FREE USGA TM app to your phone.

Each player will be assigned a GGID. Players will enter this GGID in the app to obtain the digital score card.

We will text and email you round one's GGID the day before the first round.

We will also have the information at the starter's tent.

The hole locations and rules information for each day will also be viewable on the app.

We look forward to a great tournament!!!
